

INVITATION

A Hybrid Workshop on the Pharmaceutical Sector: The Indonesian Import Regulations and the Opportunities Offered by Italian Companies

Thursday, 18 July 2024
15:00 – 17:00 (WIB) or 10:00 – 12:00 (CEST)
Thamrin Room - Mandarin Oriental Hotel Jakarta

Indonesia is the largest pharmaceutical market in Southeast Asia. According to the data from Statista, due to the high demand for pharmaceutical products and healthcare services, Indonesia's pharmaceuticals market is estimated to achieve a revenue of USD 3.52 billion by 2024. However, based on the statement of the President of Indonesia, Joko Widodo, over 90% of medicinal ingredients in Indonesia are still imported from other countries and Central Bureau Statistics (BPS) states that Indonesia's imports of pharmaceutical products reached USD 99.8 million in March 2024. As a result, the Government and related institutions must ensure that the imported medicinal and pharmaceutical products circulation meets the required safety, efficacy, and quality standards. This necessitates continuous regulatory updates. Following up on this effort, the Minister of Health of the Republic of Indonesia released Regulation No. 5 Year 2023 concerning Narcotics, Psychotropic Drugs, and Pharmaceutical Precursors. It includes the procedures for testing, supervision, and control of narcotics, psychotropic drugs, and pharmaceutical precursors entering Indonesia. The Italian pharmaceutical industry, with its cutting-edge technology and precise research, is a global leader in this field, bringing innovation and high-quality care to millions of patients worldwide, confirming the Italian commitment to global well-being. It also contributes to the development of the Indonesian pharmaceutical and health sector. In conclusion, as bilateral relations between Italy and Indonesia continue to expand, and being aware of the complementarity of the Italian and Indonesian pharmaceutical industries, this workshop aims to provide detailed information on the Indonesian updated import regulations for drugs and chemicals, and the many opportunities offered by Italian enterprises to the development of the Indonesian market.

Welcoming Remarks

Giovanni Finarelli Baldassarre
Head of the Economic & Commercial
Section of the Embassy of Italy

**Roy Himawan, S.Farm.,
Apt., M.K.M.**
Director of Pharmaceutical
Resilience and Medical Devices of
the Ministry of Health
